

### Previous research

The previous research went deep into the present condition of hospital. We laid down the project charter and the recent and long-term plan for hospital furniture preparation as well the technical requirement.

### Technical design

The configuration and technical requirement of overall architect and medical facilities of the hospital should be presented in the early stage.

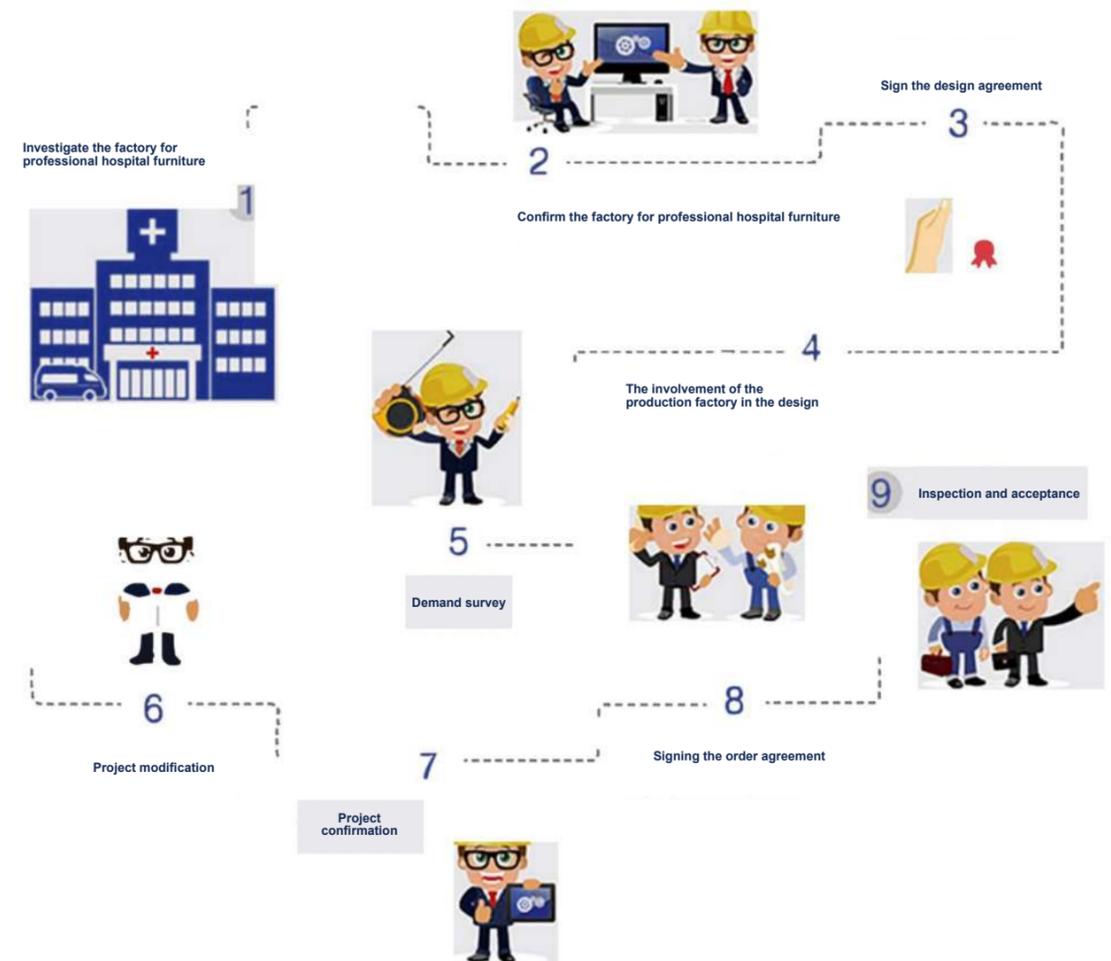

### The design submitting to interior and outdoor design

The hospital environment should submit to hospital function, the hospital furniture with innovative design must be a highlight of the hospital environment.

## WE PROVIDE PROFESSIONAL ADVICE ACCORDING TO YOUR EXACT REQUIREMENT

The design of hospital furniture should match the overall design of hospital architect. The is a complex and comprehensive project. Therefore we formulated the following content:

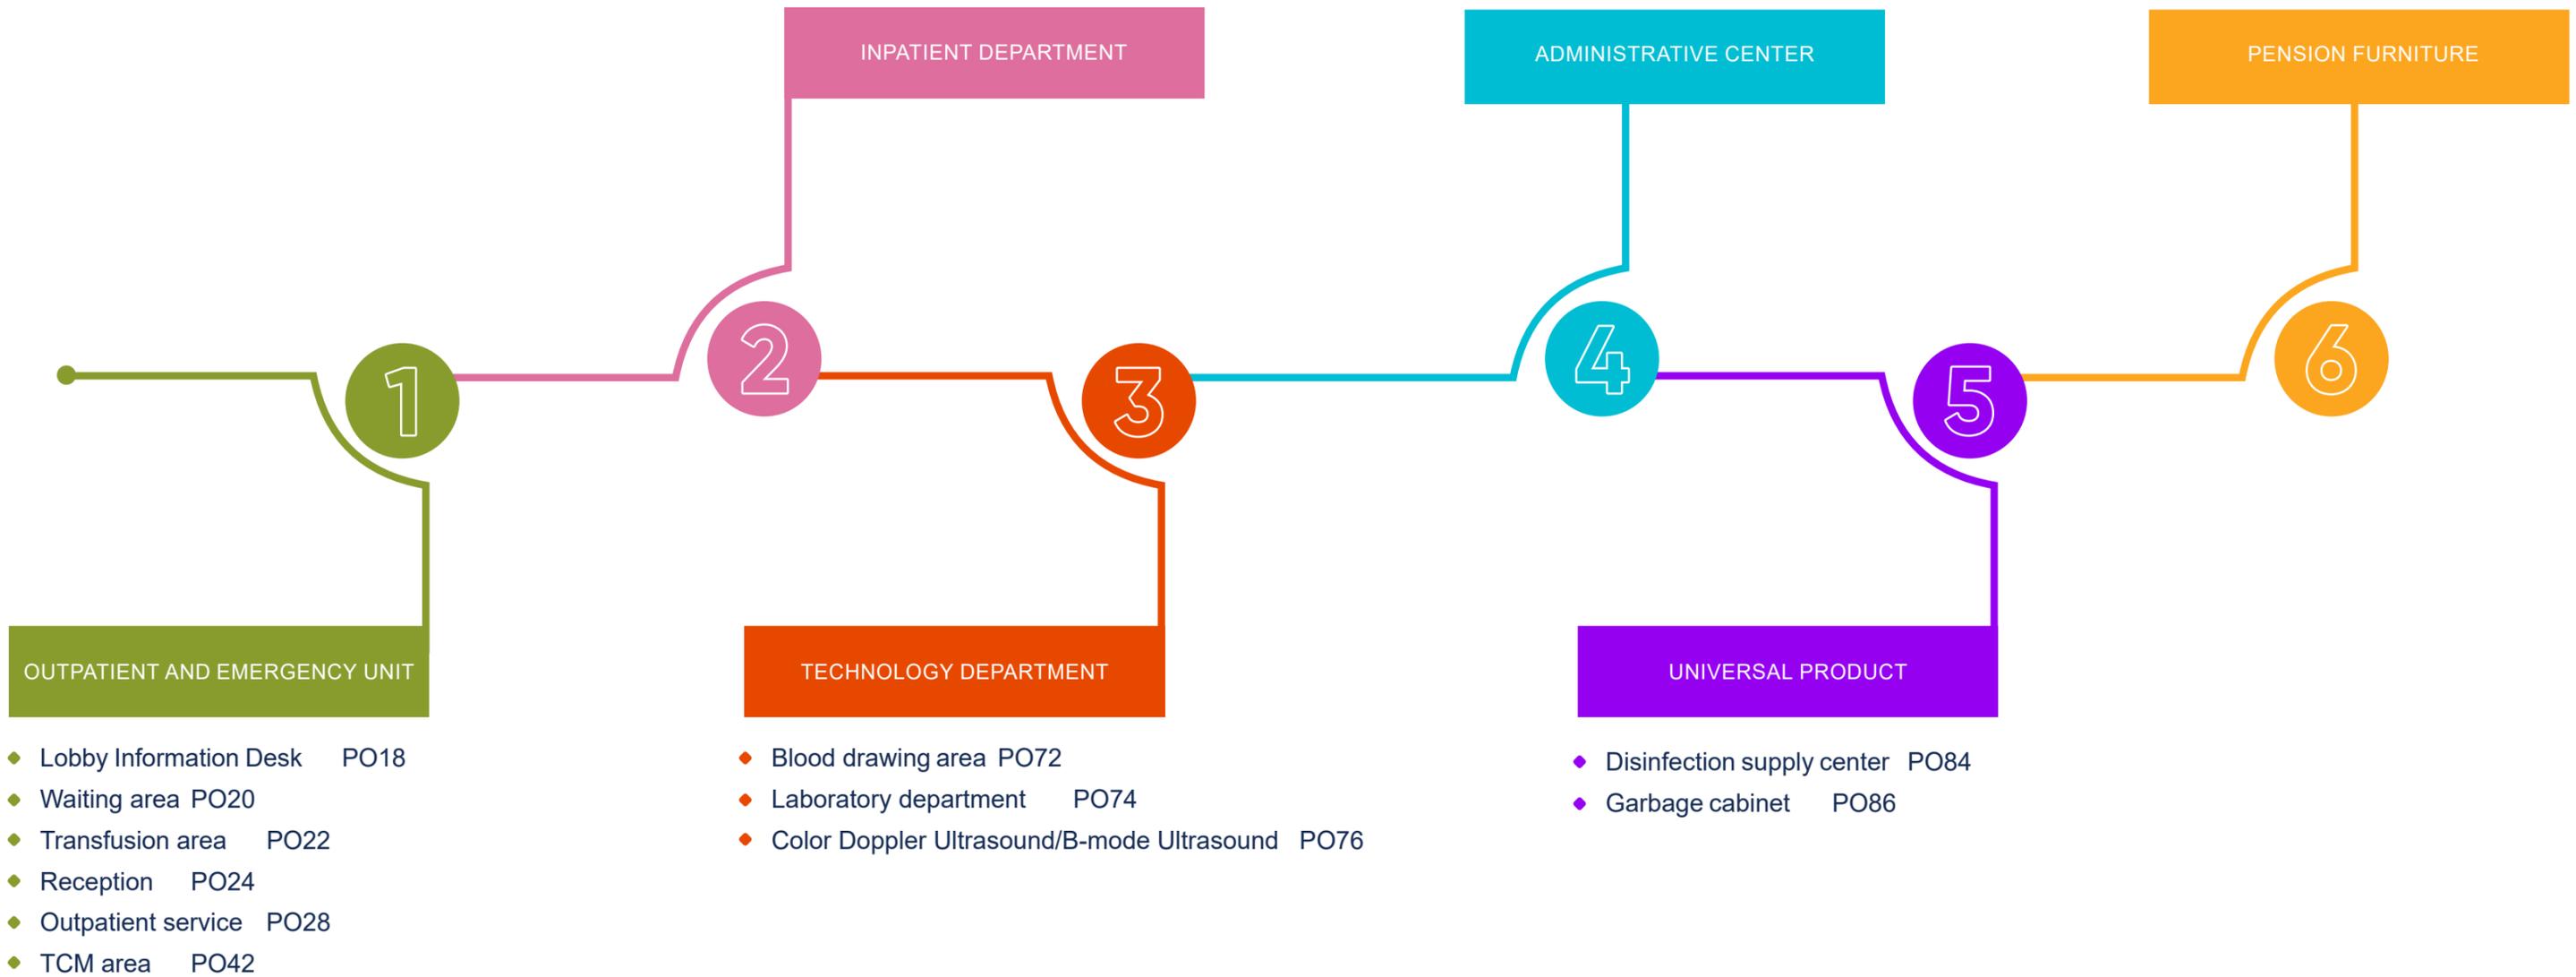

# Contents

- ◆ Nurse station PO48
- ◆ Ward PO52
- ◆ Changing room PO62
- ◆ Dosing room PO64
- ◆ Treatment room PO68
- ◆ Disposing room PO69
- ◆ Baby shower room PO70
- ◆ Medicine cabinet PO71

- ◆ Administrative offices PO78
- ◆ Multimedia Consultation Room PO80

- ◆ Lobby Public Area PO94
- ◆ Residential function P116
- ◆ Restaurant packages P118
- ◆ Entertainment function P120
- ◆ medical care P134

## OUTPATIENT AND EMERGENCY UNIT

- ◆ Lobby Information Desk
- ◆ Waiting area
- ◆ Transfusion area
- ◆ Reception
- ◆ Outpatient service
- ◆ TCM area

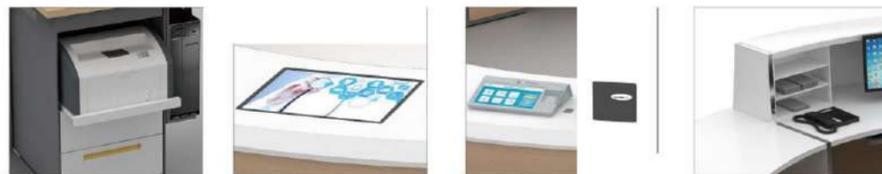

part

The clinic applied one-card system in prepayment mode. The clinic allows direct registration for consultation, and can deduct the cost of treatment directly. The drug storehouse applied background system which allows self-help inquiry of inspection result. With the reminder through big screen and message platform, it realized self-help inquiry and printing which reduces the time to get the report.

# COMPREHENSIVE SERVICE TABLE

1. Main body: E1 grade solid wood multilayer board + wood veneer, 100mm thick; inner cabinet body is made of high-density fiberboard + wood veneer;
2. Marble countertop: Made of 12.7mm medical-grade artificial marble (composite acrylic resin  $\geq 28\%$  + aluminum, outer surface 12mm medical-grade composite acrylic, inner surface wood veneer);
3. Guide rail: Adopts professional-grade medical guide rail, which features smooth operation, quiet operation, and anti-tipping function;
4. Base: E1 grade solid wood multi-layer board, fully wrapped on all four sides with 1.0mm thick 304 brushed stainless steel (folded edges).
5. Function: Concealed power and data cabling design
6. Surface treatment: Odorless and environmentally friendly paint.

- Operation of printer  
Place the printer, it has guide rail for pulling out
- Inquiry machine  
With guiding and inquiry function
- Card creator machine  
Creating medical card
- Shelf for notes  
Store papers and notes

## Model: YL-A1003 Guidance Desk

1. Main Body: E1 grade solid wood multi-layer board + wood veneer, 100mm thick; inner cabinet body uses high-density MDF + wood veneer.
2. Marble Countertop: Made of 12.7mm medical-grade artificial marble (composite acrylic resin  $\geq 28\%$  + aluminum, outer surface 12mm medical-grade composite acrylic, inner surface wood veneer).
3. Guide Rails: Uses professional-grade medical guide rails, featuring smooth operation, quiet operation, and anti-tipping function.
4. Base: E1 grade solid wood multi-layer board, fully wrapped on all four sides with 1.0mm thick 304 brushed stainless steel (folded edges).
5. Function: Concealed power and data cabling design.
6. Surface Finish: Odorless and environmentally friendly paint.

## LOBBY WAITING AREA

The modern intelligent hospital is patient-centered, its clinic experience and doctor advises are principal. These has become the basis of the construction of intelligent hospital and covers each procedure of the construction. We creates the medical environment that makes the patients convenient assured and satisfied with the optimized procedure and the most convenient service. We make the overall plan in a scientific way.

### Model: YL-C2401 Waiting Chair 1 (Grayish White)

Dimensions: 1750×680×770mm

Aluminum alloy legs + PU self-skinning seat and back panel + high-quality steel frame, armrests + extra-large door corner beams.

### Model: YL-C2402 Waiting Chair 2 (Silver Gray)

Dimensions: 1750×680×770mm

High-quality steel armrests and legs + high-quality steel mesh + extra-large door corner beams.

### Model: YL-C2403 Waiting Chair 3 (Dark Green)

Dimensions: 1750×680×770mm

Aluminum alloy frame with nano-paint + high-quality steel mesh + medical-grade leather for seat and back + high-quality environmentally friendly seaweed

### Model: YL-C2404 Waiting Chair 4 (Green)

Dimensions: 1740×676×950mm

Cold-rolled steel plate cold-pressed/ polyurethane foam seat cushion.

### Model: YL-C2405 Waiting Chair 5 (Grass Green)

Dimensions: 1740×676×950mm

Armrests and legs: Cold-rolled steel plate, cold-pressed/polyurethane foam seat cushion.

### Model: YL-C2406 Waiting Chair 6 (Black)

Dimensions: 1740×676×950mm

High-quality steel armrests and legs/ polyurethane foam seat cushion

### Model: YL-C2407 Waiting Chair 7 (Blue)

Dimensions: 2250×676×950mm

High-quality steel armrests and legs/ polyurethane foam seat cushion

**Model: YL-C2503 Single Infusion Chair (3 units)**

The frame is made of aluminum alloy with nano-paint coating, high-quality steel mesh, medical-grade leather for the seat and backrest, and high-quality environmentally friendly sponge.

## TRANSFUSION ROOM

The transfusion area should be equipped with calling system, reducing the work load of nurses while ensuring the security of patient.

## GUIDE RECEPTION

### Model: YL-A1004 Guidance Desk 4

1. Cabinet: Electrolytic steel plate, steel plate thickness  $\geq 1.0\text{mm}$ ; main steel structure, using a combination of 2.0mm electrolytic steel plate and 2.0mm steel pipe; cabinet doors and drawers use concealed handles, bent into one piece;

2. Marble countertop: Composite acrylic resin  $\geq 28\%$  + aluminum powder, easy to clean, high temperature resistant, impact resistant, and stain resistant;

3. Guide rails: Professional-grade medical guide rails, smooth, quiet, and anti-tipping;

4. Surface treatment: Electrostatic epoxy resin powder coating, 304 stainless steel skirting board.

**Model: YL-A1005 Nurse Station**

1. Main Body: E1 grade solid wood multi-layer board + wood veneer, 100mm thick; inner cabinet body is made of high-density MDF + wood veneer;
2. Marble Countertop: Made of 12.7mm medical-grade artificial marble (composite acrylic resin  $\geq 28\%$  + aluminum, outer surface 12mm medical-grade composite acrylic, inner surface wood veneer);

3. Guide rail: Uses professional-grade medical guide rail, featuring smooth operation, quiet operation, and anti-tipping function;
4. Base: E1 grade solid wood multi-layer board, fully wrapped on four sides with 1.0mm thick 304 brushed stainless steel (folded edges);
5. Function: Concealed power and data cable routing design;
6. Surface treatment: Odorless and environmentally friendly paint.

**GUIDE  
RECEPTION**

**Model: YL-A1006 Guidance Desk 6**

1. Main Body: E1 grade solid wood multi-layer board + wood veneer, 100mm thick. Inner cabinet body is made of high-density MDF + wood veneer;
2. Marble Countertop: Made of 12.7mm medical-grade artificial marble (composite acrylic resin  $\geq 28\%$  + aluminum, outer side 12mm medical-grade composite acrylic, inner side wood veneer);
3. Guide Rails: Uses professional-grade medical guide rails, with smooth, quiet, and anti-tipping functions;
4. Base: E1 grade solid wood multi-layer board, fully wrapped on all four sides with 1.0mm thick - 304 brushed stainless steel (folded edges);
5. Function: Concealed power and data cabling design;
6. Surface Treatment: Odorless and environmentally friendly paint.

## DOUBLE ROOM

- ◆ Model: YL-D3108 Double examination table dimensions: 3380×2025×750/1200mm
- ◆ Model: YL-B1122 Combination cabinet (wardrobe + washbasin) Dimensions: 1800×600×2000mm
- ◆ Model: YL-E4012 Examination bed dimensions: 2000×800×650mm

## SINGLE CONSULTATION ROOM

- Model: VL-D3110 Clinic Dimensions: 1600×1500×750mm

## INPATIENT DEPARTMENT

- ◆ Nurse station
- ◆ Ward
- ◆ Changing room
- ◆ Dosing room
- ◆ Treatment room
- ◆ Disposing room
- ◆ Baby shower rooms

In order to meet different medical space demands, we provide various form of nurse station such as arc shape and rectangle shape with sound corner in addition to the classical semi on orthogonal nurse station, these provide fine solution for space with different proportion and shape.

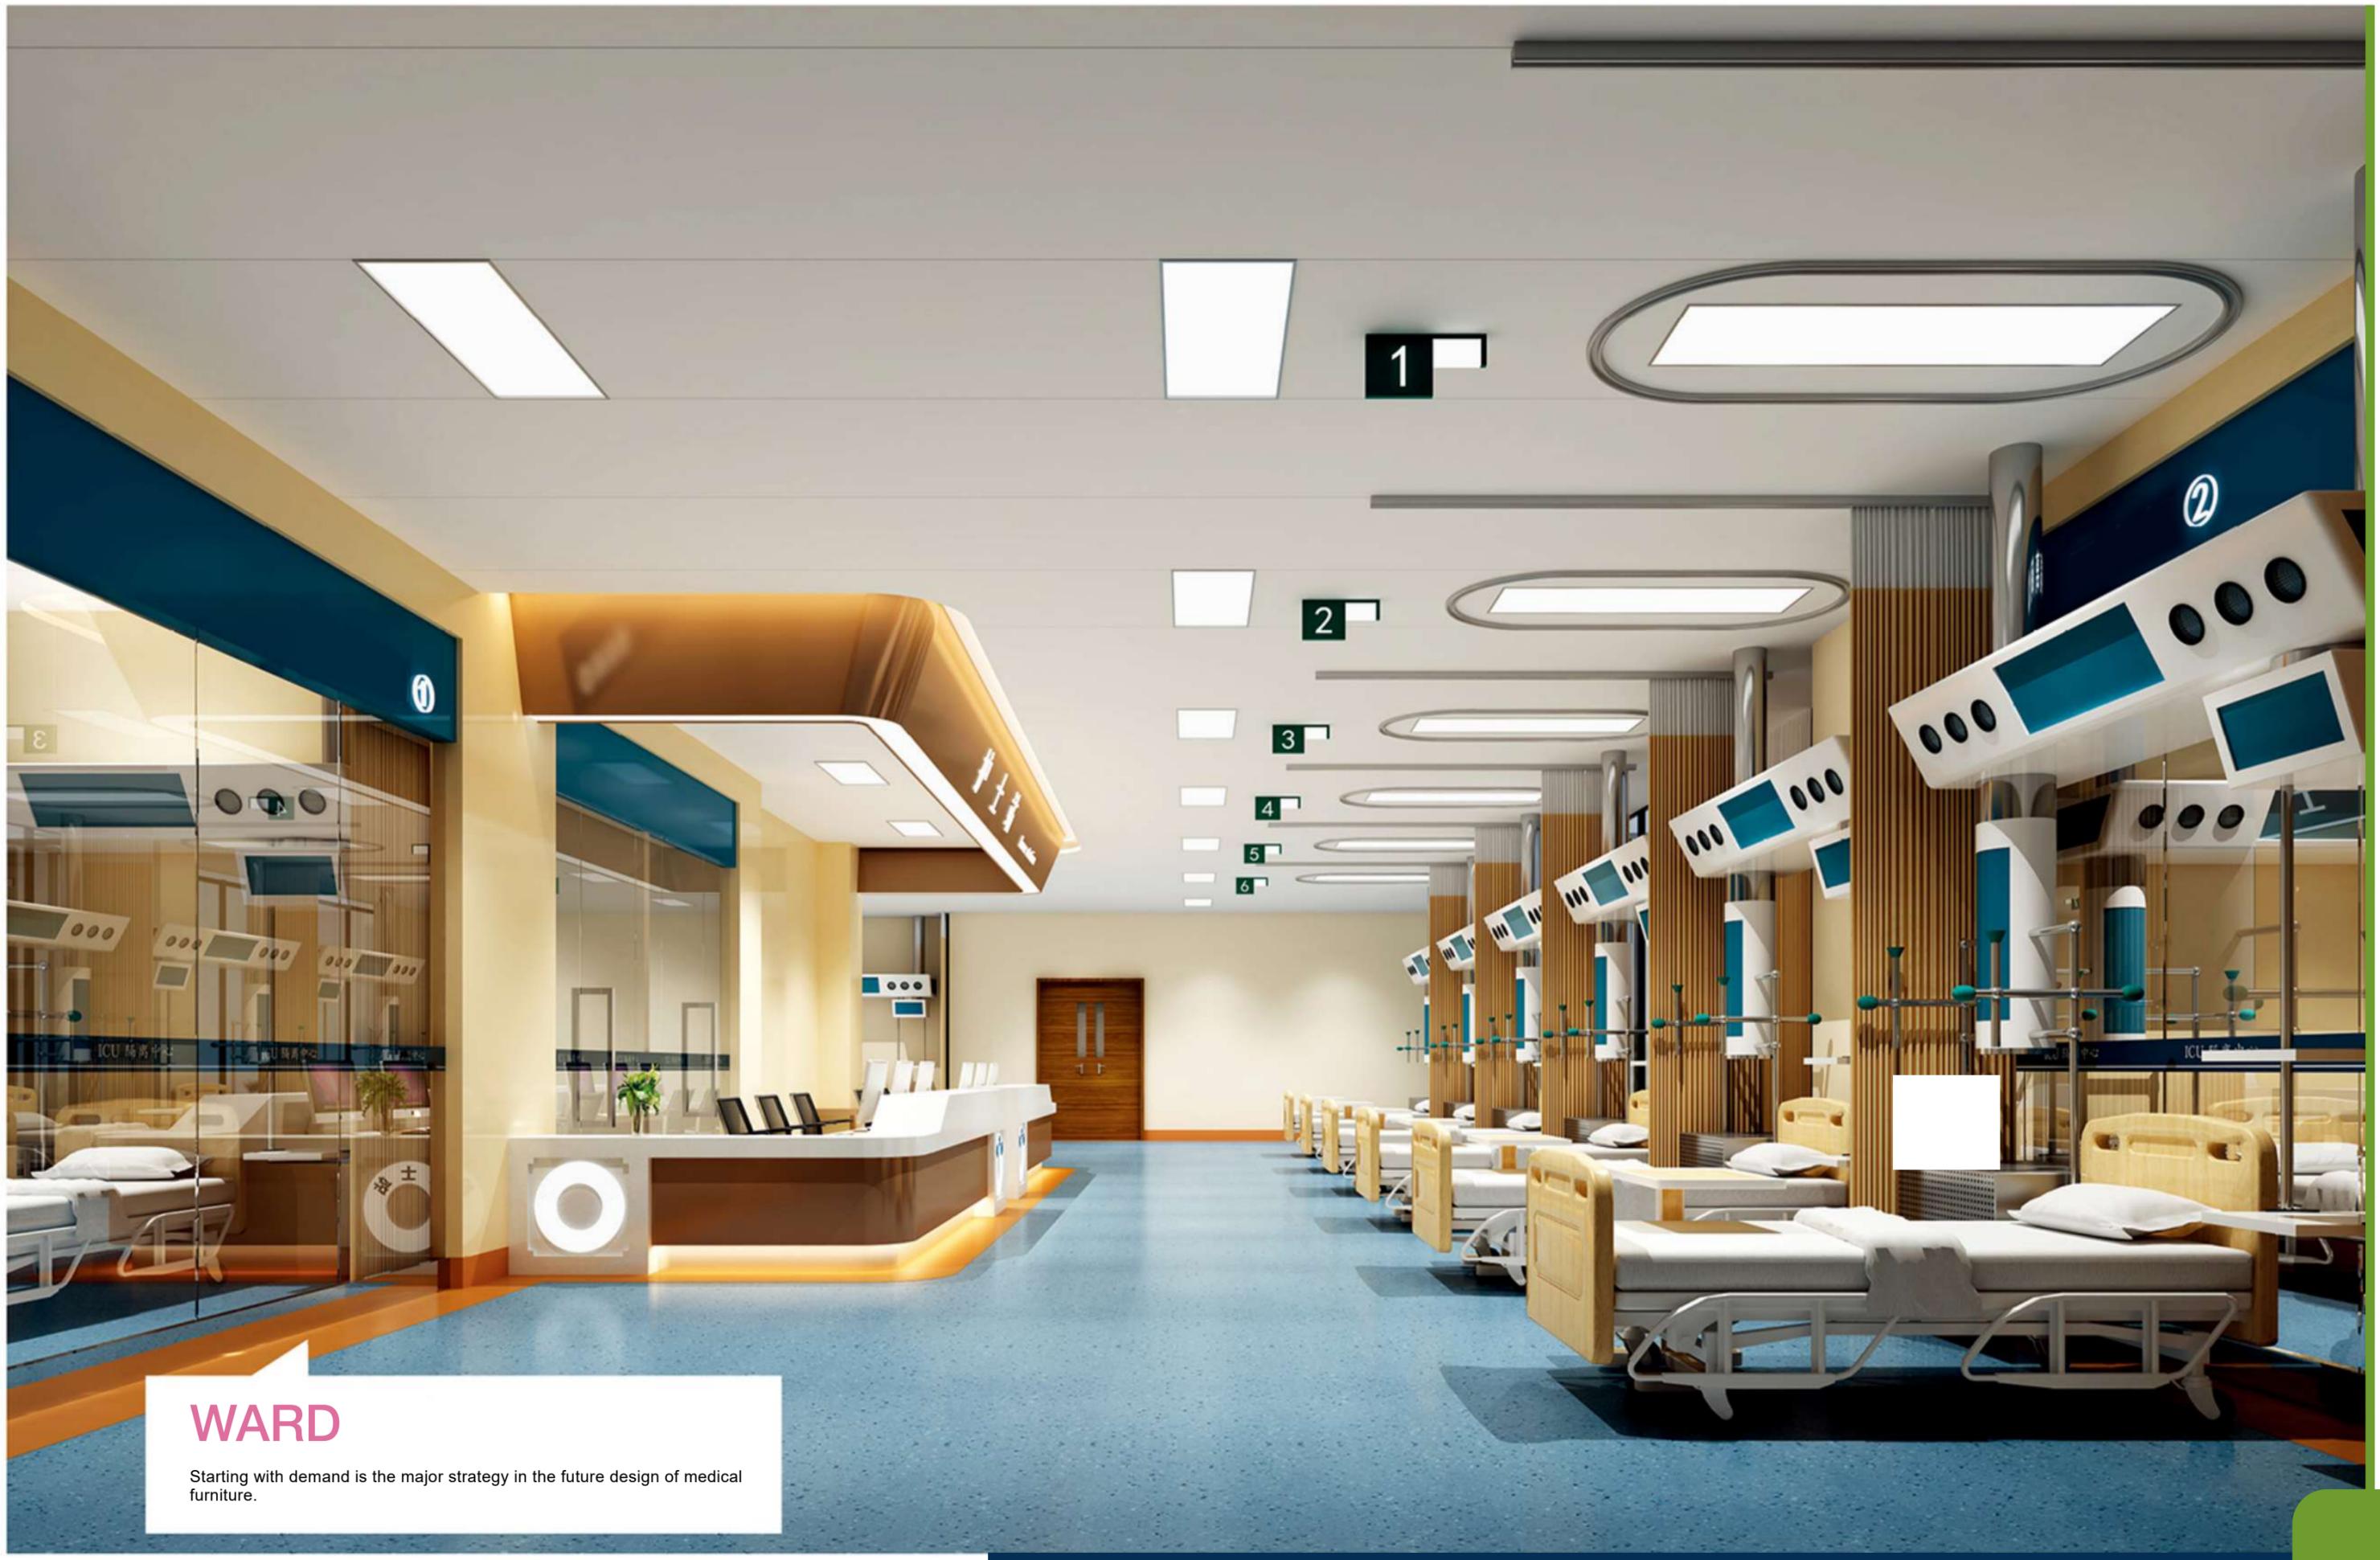

Model: YL-A1007 Nurse Station 7  
Dimensions: 5280×2778×760/1100mm

## NURSE STATION

**Model: YL-A1009 Nurse Station 9**

1. Main Body: E1 grade solid wood multi-layer board + wood veneer, 100mm thick; inner cabinet body uses high-density MDF + wood veneer.
2. Marble Countertop: Made of 12.7mm medical-grade artificial marble (composite acrylic resin  $\geq 28\%$  + aluminum, 12mm medical-grade composite acrylic on the outer side, wood veneer on the inner side).
3. Guide Rails: Uses professional-grade medical guide rails, featuring smooth operation, quiet operation, and anti-tipping function.
4. Base: E1 grade solid wood multi-layer board, fully wrapped on all four sides with 1.0mm thick 304 brushed stainless steel (folded edges).
5. Function: Concealed power and data cabling design.
6. Surface Finish: Odorless and environmentally friendly paint.

## WARD

Starting with demand is the major strategy in the future design of medical furniture.

- ◆ **Model: YL-E4121 Manual Double-Crank Central Control Nursing Bed**  
 Dimensions: 2160×1040×500mm  
 Backrest Adjustment: 85°±5°, Legrest Adjustment: 45°±5°
- ◆ **Model: YL-D3301 Portable Dining Table 1**  
 Dimensions: 900×450×1020/720mm
  1. The tabletop is made of PP blow-molded plastic;
  2. The uprights are made of aluminum profiles, electrostatically sprayed, and naturally aging and then anodized;
  3. The base is made of cold-rolled steel plate, stamped, rust-free, and electrostatically sprayed.
  4. The four legs are equipped with fully braked double-bearing rubber and plastic casters, and the height is adjusted by a pneumatic lifting device;
  5. Materials: PP & 60mm steel suction base tube, pneumatic rod size: 70×90mm, adjustable height: 720×1020mm, maximum load capacity: 16KGS.
- ◆ **Model: YL-B1303 Bedside Table**  
 Dimensions: 500×400×450mm
  1. Main Body: High-quality wood grain E1 grade melamine board, edged with high-quality 2.0mm thick PVC strips, finished by a fully automatic edge-sealing machine;
  2. Guide Rails: Professional-grade medical guide rails, featuring smooth, quiet, and anti-tipping functions.

## DELUXE SUITE WARD

**Model: YL-E4251 Multifunctional Electric Nursing Bed**  
 Dimensions: 2130×1030×760/460mm

**Model: YL-B1302 Bedside Table**  
 Dimensions: 500×400×450mm

**Model: YL-S3101 Single Sofa**  
 Dimensions: 700×780×900mm

**Model: YL-S3102 Three-seater sofa**  
 Dimensions: 2000×780×820mm

**Model: YL-F5001 Coffee Table**  
 Dimensions: 1100×600×450mm

**Model: YL-G6001 TV cabinet**  
 Dimensions: 1800×400×600mm

◆ **Model: YL-E4122 Manual Double-Crank Central Control Nursing Bed**  
 Dimensions: 2160×980×500mm  
 Backrest Adjustment: 85°±5°, Legrest Adjustment: 45°±5°

◆ **Model: YL-B1603 Bedside Table**

Dimensions: 400×500×620mm

1. Cabinet Body: Electrolytic steel plate, steel plate thickness  $\geq 1.0\text{mm}$ ; main steel structure, using a combination of 2.0mm electrolytic steel plate and 2.0mm steel pipe; cabinet doors and drawers feature concealed handles, integrally formed by bending;
2. Door Hinges: Hydraulic buffer;
3. Surface Finish: Electrostatic epoxy resin powder coating.

◆ **Model: YL-E4123 Manual Double-Crank Central Control Nursing Bed**

Dimensions: 2160×980×500mm

Backrest Adjustment: 85°±5°, Legrest Adjustment: 45°±5°

◆ **Model: YL-D3302 Mobile Dining Table 2**

Tabletop Dimensions: 800×400×20mm  
 Height Adjustment: 630-930mm (Tabletop height)

1. The frame is made of aluminum alloy tubing, which is fade-resistant, rust-free, sturdy, safe, and aesthetically pleasing.
2. The solid wood tabletop is 20mm thick, durable, and environmentally friendly. The raised edge design prevents items from falling off. Pneumatic lifting with gas spring assistance and a user-friendly handle design make the lifting system easy and convenient, operable with one hand. The support legs feature an "I"-shaped design, exuding a high-end feel, and are equipped with four 360-degree rotating silent casters at the bottom. Easy and flexible movement.

**FIVES FUNCTIONS**  
ELECTRIC BED

**Product Name: Three-Function Electric Nursing Bed**

**Model: YL-E4231**

Dimensions: 2160×980×500mm

Length/L: 2220mm

Width/W: 1040mm

Height/H: 460-700mm

**Product Features:**

1. Backrest adjustment 70°±5°, legrest adjustment 40°±5°
2. Overall bed height adjustment 460-700mm

# PATIENT ACCOMPANYING FURNITURE

Nursing bed (Chair) has storage function as well as online payment. It saves the human resources, storage space and operating space for the hospital. It is safe, comfortable and convenient, suitable for ward and corridor.

Model: YL-PH9002 Folding Companion Bed 2  
Dimensions: 900×100×1000mm

Model: YL-PH9003 Functional Companion Sofa 3  
Dimensions: 1100×800×900mm

Model: YL-PH9004 Functional Companion Sofa (4 units)  
Dimensions: 2300×860×900mm

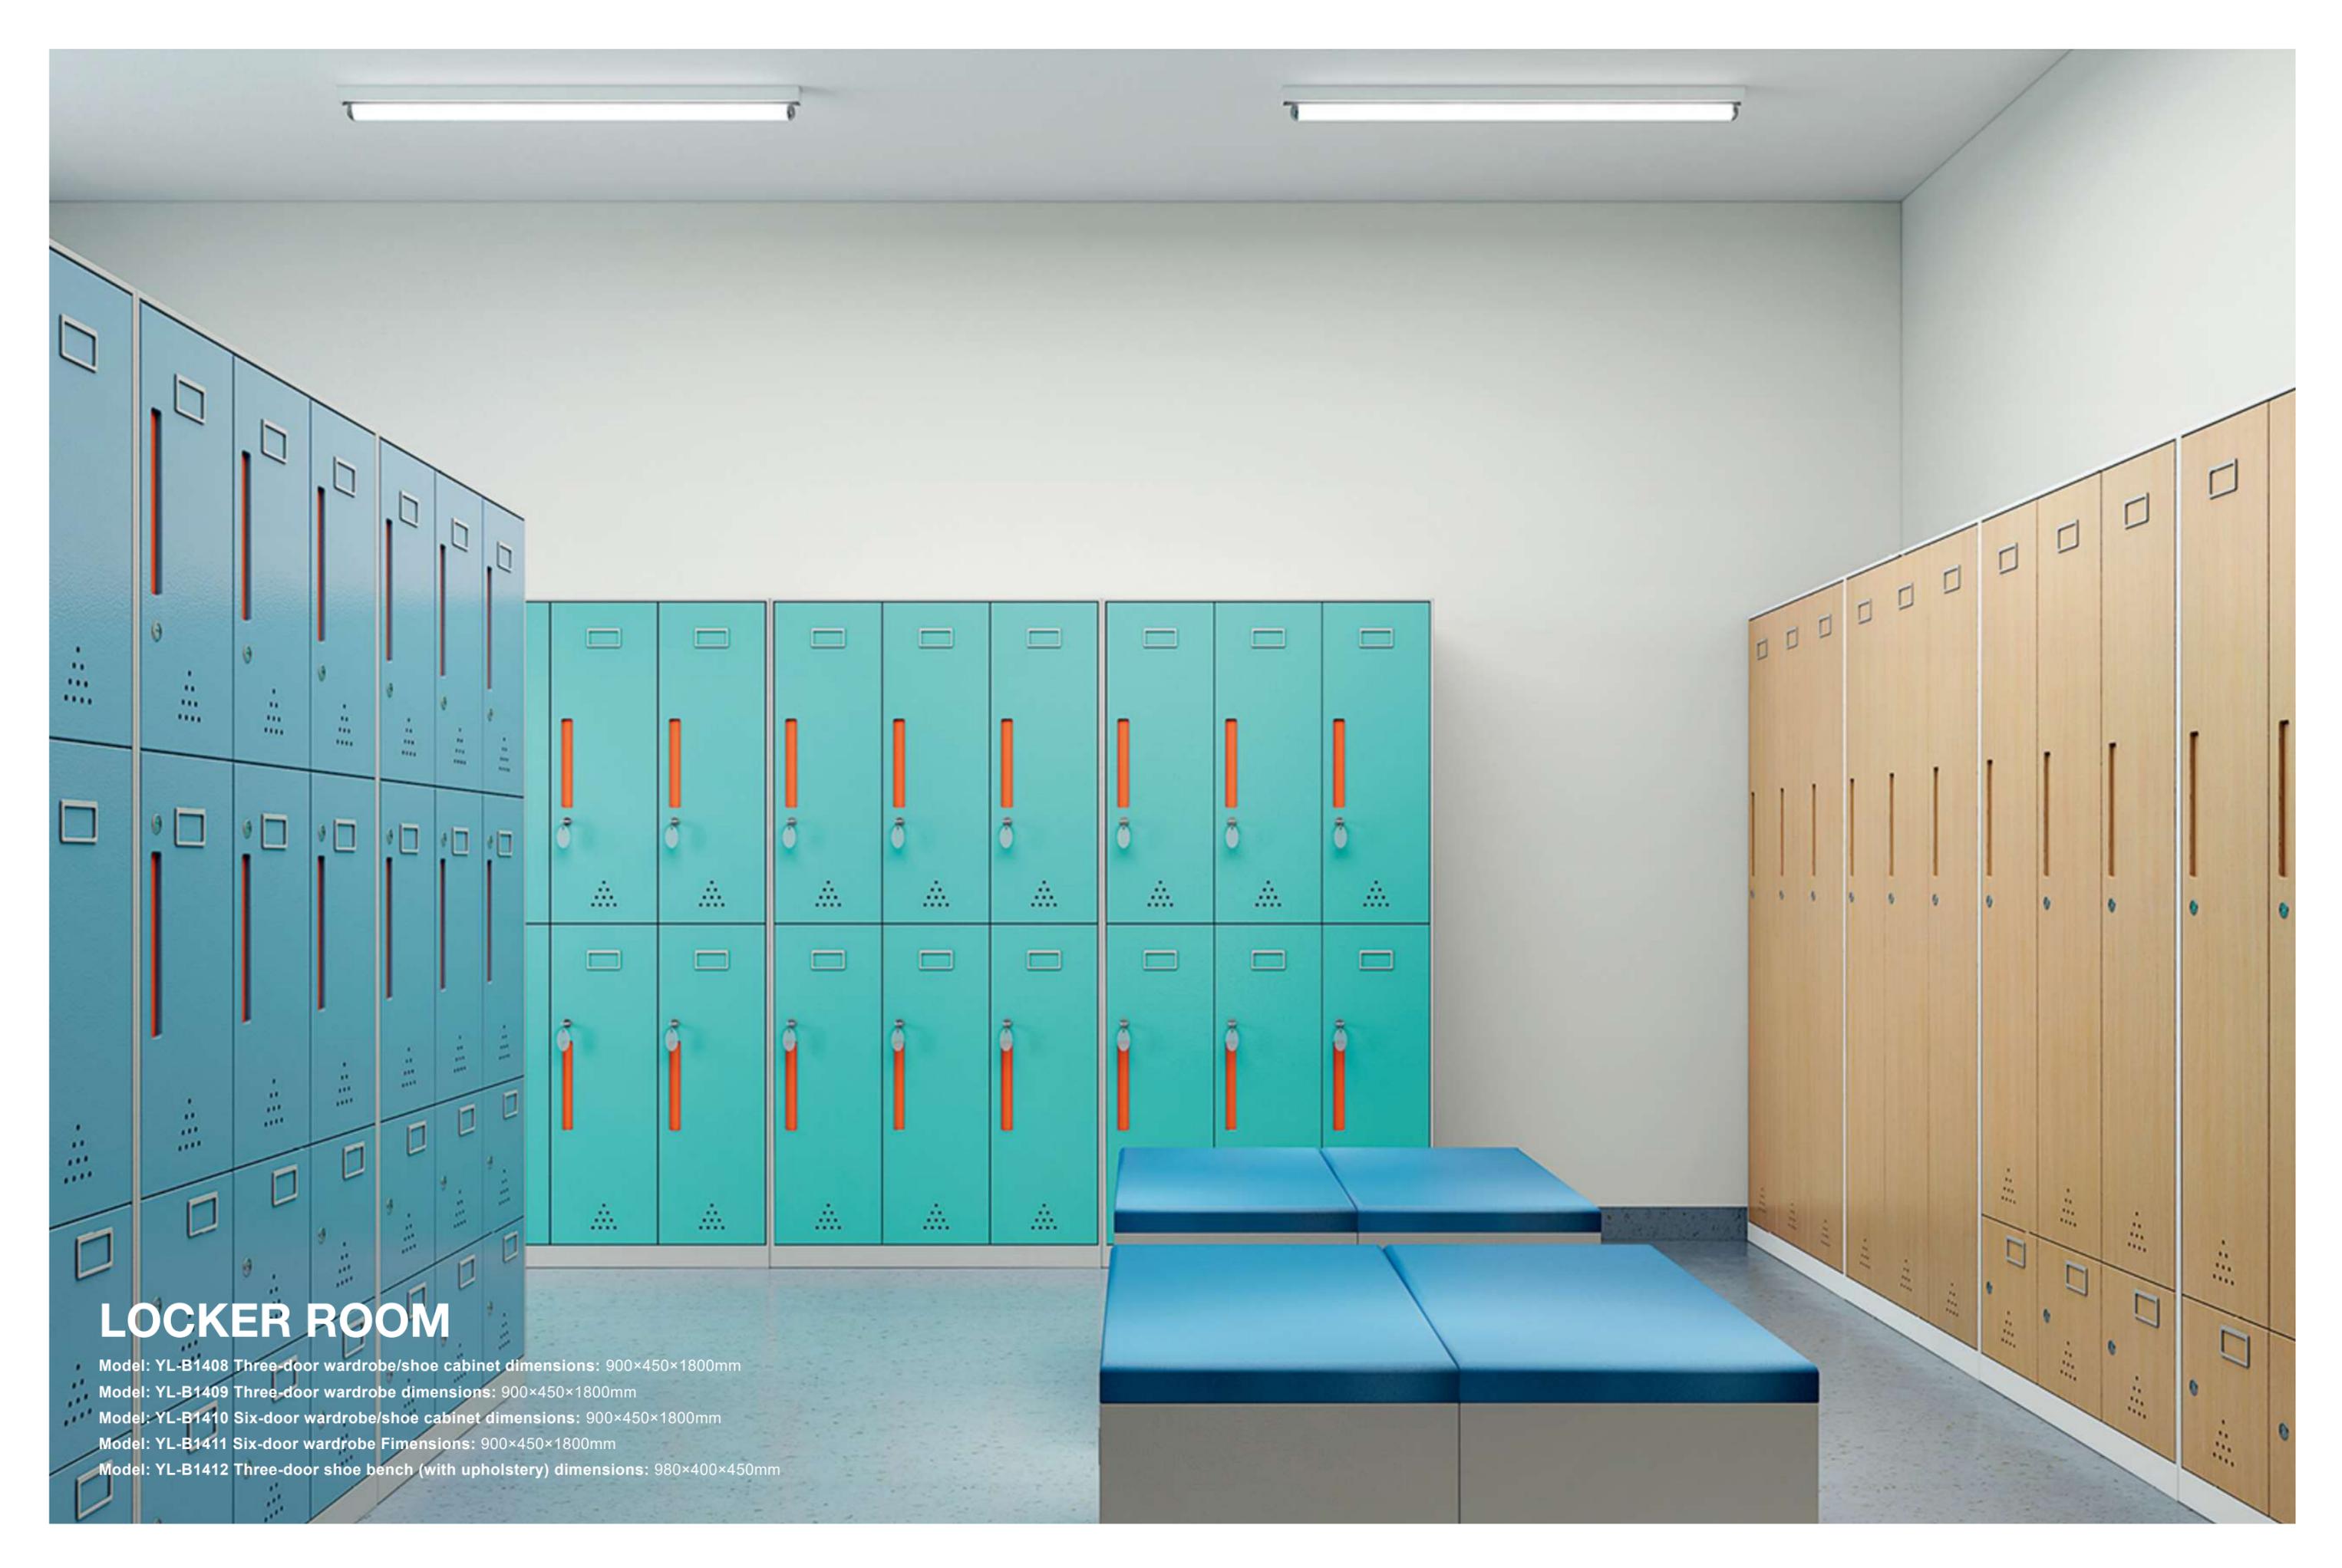

Model: YL-PH9001 Folding Companion Chair 1 Dimensions: 700×720×1900mm  
Material: Carbon steel painted frame, waterproof and wear-resistant fabric, high-density polyester-cotton inner core

Model: YL-PH9005 Functional Companion Chair (5 units)

Model: YL-PH9006 Functional Companion Chair (6 seats)

# LOCKER ROOM

Model: YL-B1408 Three-door wardrobe/shoe cabinet dimensions: 900×450×1800mm

Model: YL-B1409 Three-door wardrobe dimensions: 900×450×1800mm

Model: YL-B1410 Six-door wardrobe/shoe cabinet dimensions: 900×450×1800mm

Model: YL-B1411 Six-door wardrobe Dimensions: 900×450×1800mm

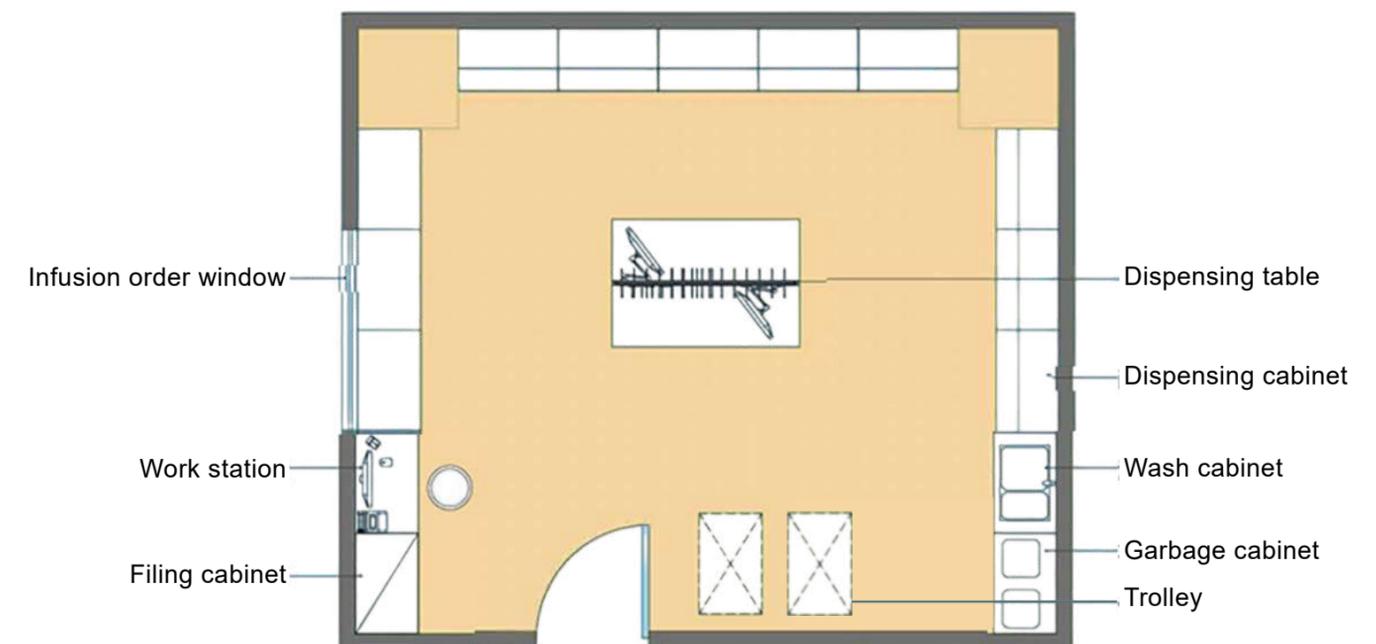

Model: YL-B1412 Three-door shoe bench (with upholstery) dimensions: 980×400×450mm

# ALISA FARMA LDA

The dispensing room is used for dispensing the infusion solution of wards, therefore it should be set near the nursing station. The room should be equipped with auxiliary cart for dispensing drug and medicine. External medicine and machine should be prepared. As the room requires cleanness, it can be sterilized with ultraviolet and other method. A cleaned table for dispensing should be set if possible.

## Plane graph of dispensing room

## DISPENSING ROOM 配液室

1. Material: 1.0mm thick high-quality electrolytic steel plate, moisture-proof, waterproof, and durable.
2. Antibacterial powder coating, effective against multiple bacteria such as Escherichia coli and Staphylococcus aureus;
3. Multiple colors available.
4. The countertop is made of 12.7mm composite acrylic artificial stone;
5. Baseboard made of 304 food-grade stainless steel.
6. Accessories: Stainless steel U-shaped handles/concealed handles/straight handles, soft-close hinges, one movable shelf each in the upper cabinet and the middle of the cabinet; optional accessories include composite acrylic water-blocking strips, trash can, stainless steel sink, and sensor faucet.
7. Imported antibacterial powder electrostatic spraying on the metal surface.

Strong the various medicine orderly with labels according to the requirement of hospital.  
Make the usage of mine convenient and reasonable, avoid wrong usage.

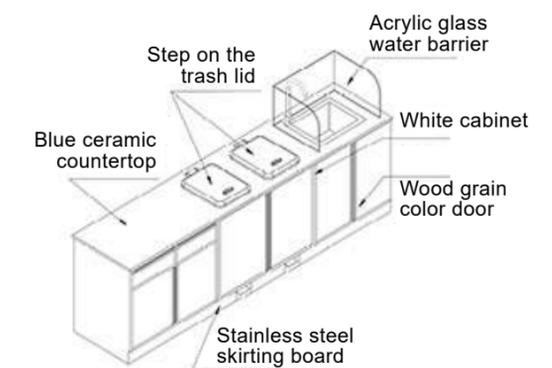

## CHANGE MEDICINE ROOM

1. The cabinet body is made of 1.0mm thick high-quality electrolytic steel plate, which is moisture-proof, waterproof, and durable.
2. Antibacterial powder coating, resistant to multiple bacteria such as Escherichia coli and Staphylococcus aureus;
3. Hardware accessories: concealed single-section handles, laboratory-grade hinges;
4. Multiple colors available;
5. The countertop is made of 12.7mm composite acrylic artificial stone;
6. The baseboard is made of 304 food-grade stainless steel.

## DISPOSING ROOM

1. Material: 1.0mm thick high-quality electrolytic steel plate, moisture-proof, waterproof, and durable.
2. Accessories: Stainless steel U-shaped handles/ concealed handles/straight-line handles, soft-close hinges, one movable shelf each in the upper cabinet and the middle of the cabinet; acrylic water-blocking strips, trash cans, stainless steel sinks, and sensor faucets can be added as needed.
3. Metal surface electrostatically coated with imported antibacterial powder.

# BABY SHOWER ROOM

◆ Model: YL-B1501 Bathtub Vanity  
Dimensions: 960×580×800mm

1. Cabinet Body: Electrolytic steel plate, thickness ≥1.0mm; main steel structure, constructed with a combination of 2.0mm electrolytic steel plate and 2.0mm steel pipe; cabinet doors and drawers feature concealed handles, integrally formed by bending;
2. Guide Rails: Professional-grade medical guide rails, featuring smooth operation, quiet operation, and anti-tipping function;  
Door Hinges: Hydraulic buffer;
3. Surface Finish: Electrostatic epoxy resin powder coating;  
Baseboard: 304 brushed stainless steel (folded edge).

Model: YL-A2009 Medicine Cabinet 9

### BLOOD TEST COUNTER

◆ **Model: YL-A1012 Infusion Stand 12**

- 1. Cabinet: Electrolytic steel plate, thickness  $\geq 1.0\text{mm}$ ; main steel structure, using a combination of 2.0mm electrolytic steel plate and 2.0mm steel pipe; cabinet doors and drawers feature concealed handles, integrally formed by bending.
- 2. Guide Rails: Professional-grade medical guide rails, smooth, quiet, and anti-tipping.
- 3. Surface Finish: Electrostatic epoxy resin powder coating.
- 4. Baseboard: Food-grade 304 stainless steel baseboard.

◆ **Model: YL-C2403 Waiting Chair 3**

The frame is made of aluminum alloy with nano-paint coating, high-quality steel mesh, and the seat and back are made of medical-grade leather and high-quality environmentally friendly sponge.

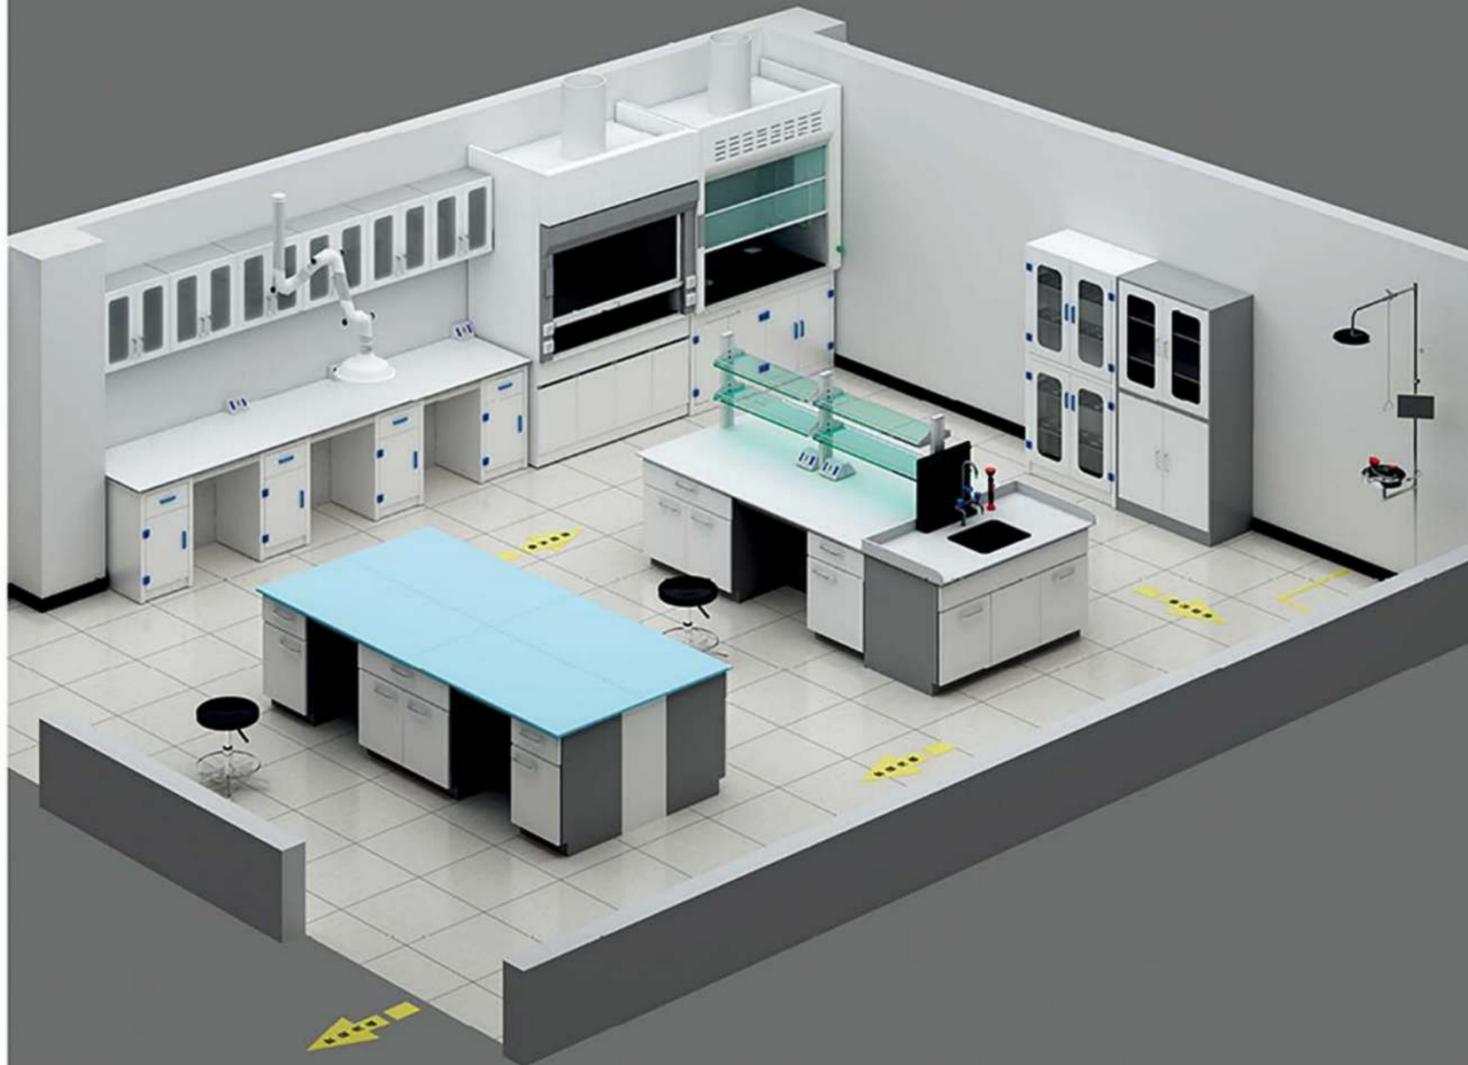

### Hospital Furniture BLOOD DRAW AREA

Blood drawing room is the place for drawing blood for inspection. This space should be made extremely clean. The patient flow of its waiting area should be controlled. It is usually designed in counter mode. There should be seats for the patients.

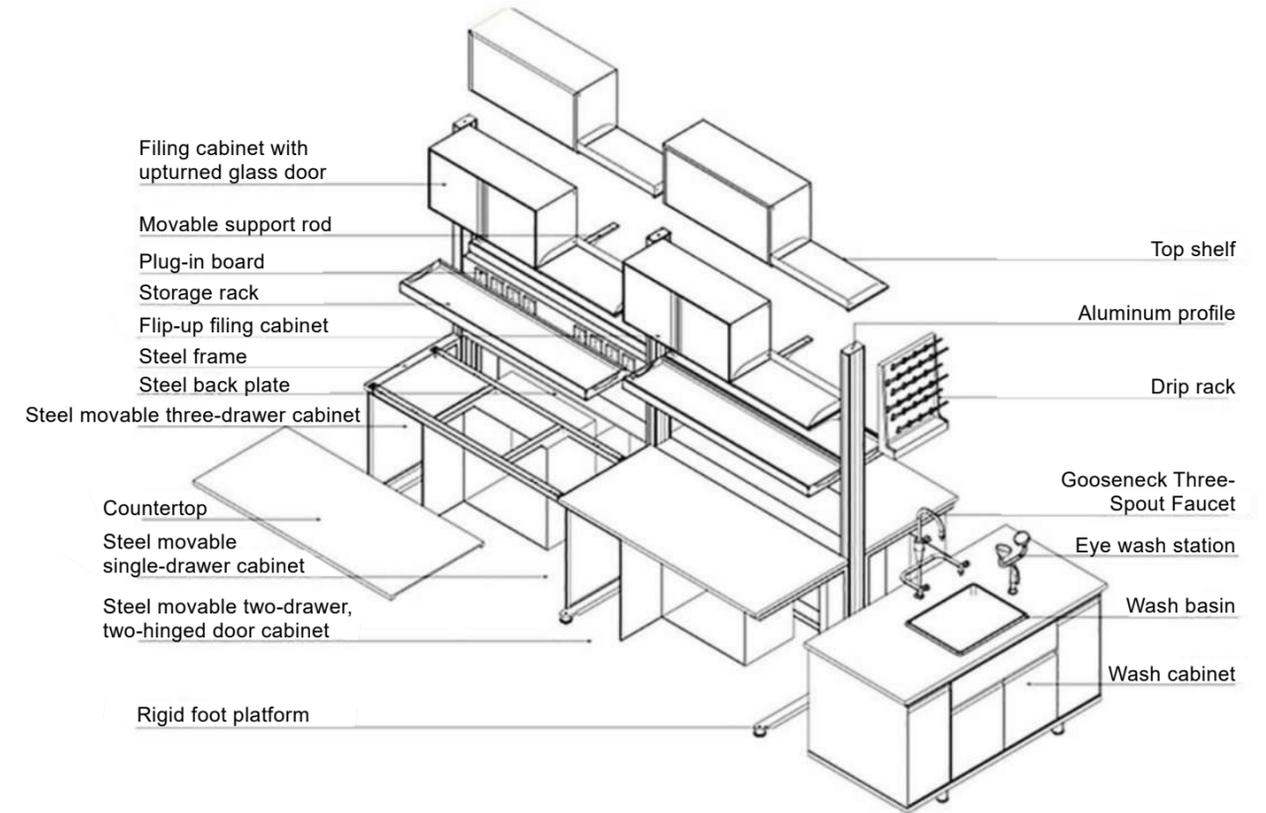

Model: YL-S3103 Premium Waiting Sofa

# AERIAL VIEW OF INSPECTION PLATFORM

1. Countertop: 12.7mm solid core phenolic resin board, thickened to 25.4mm at the edges.
2. Cabinet Frame: Constructed from high-quality C-shaped rectangular steel tubing, with electrostatic powder coating for acid and alkali resistance and corrosion resistance.
3. Cabinet Body: 15mm environmentally friendly E1 grade MDF with 2.0mm PVC edge banding.
4. Hardware Accessories: Concealed single-section handles, laboratory-grade hinges, three-section load-bearing silent slides.
5. PP sink, three-way faucet, PVC water supply and drainage pipes, and reagent rack are charged separately.

## LABORATORY

The laboratory department should arrange the inspecting time of the projects and ensure efficiency. It should try to reduce the time to get the report and response fast during the process, especially for the inspection of emergency case.

## RADIOLOGY DEPARTMENT

The radiology department is an important auxiliary department for inspection. In the construction of modern hospital, the radiology department is department inspection, diagnosing and therapy. many clinical diseases can realize accurate and auxiliary diagnosis by inspecting with the facilities of the radiology department.

# 4

## ADMINISTRATIVE CENTER

- ◆ **Model: YL-B1138 Combination Desk**

Dimensions: 1200×1200×750mm

1. Made of E1 grade particleboard with bamboo-wood grain melamine paper veneer, high-quality PVC edge banding, uniform board color, natural texture, and tight joints.

2. Hardware: High-quality brand-name hardware.

3. Equipped with a steel frame.

- ◆ **Model: YL-B1133 Low Filing Cabinet**

Dimensions: 800×400×2000mm

1. Made of E1 grade particleboard with bamboo-wood grain melamine paper veneer, high-quality PVC edge banding, uniform board color, natural texture, and tight joints.

2. Hardware: High-quality brand-name hardware.

- ◆ **Model: VL-C2220 Mid-sized Executive Chair 20**

Made with high-quality mesh fabric and high-density flame-retardant sponge (55# or higher). The surface has an anti-aging protective film to prevent oxidation. It offers moderate firmness, good resilience, and does not deform. Features include height adjustment without noise, flexible and easy steering, PU armrests, and high-quality five-star legs.

# MULTIMEDIA CONSULTATION ROOM

Establish a book of articles, check once every quarter, and register in time to ensure that the accounts are consistent and regularly maintained. Timely replenishment of disposable items consumed to ensure normal teaching, training, and assessment.

## Doctor's Meeting Room

- YL-S3117 Sofa
- Video Display Screen
- YL-C2210 Mid-Level Chair (10 seats)

The demonstrate classroom is the major place for communication, training, medical research, academic exchange and surgery consultation through internet.

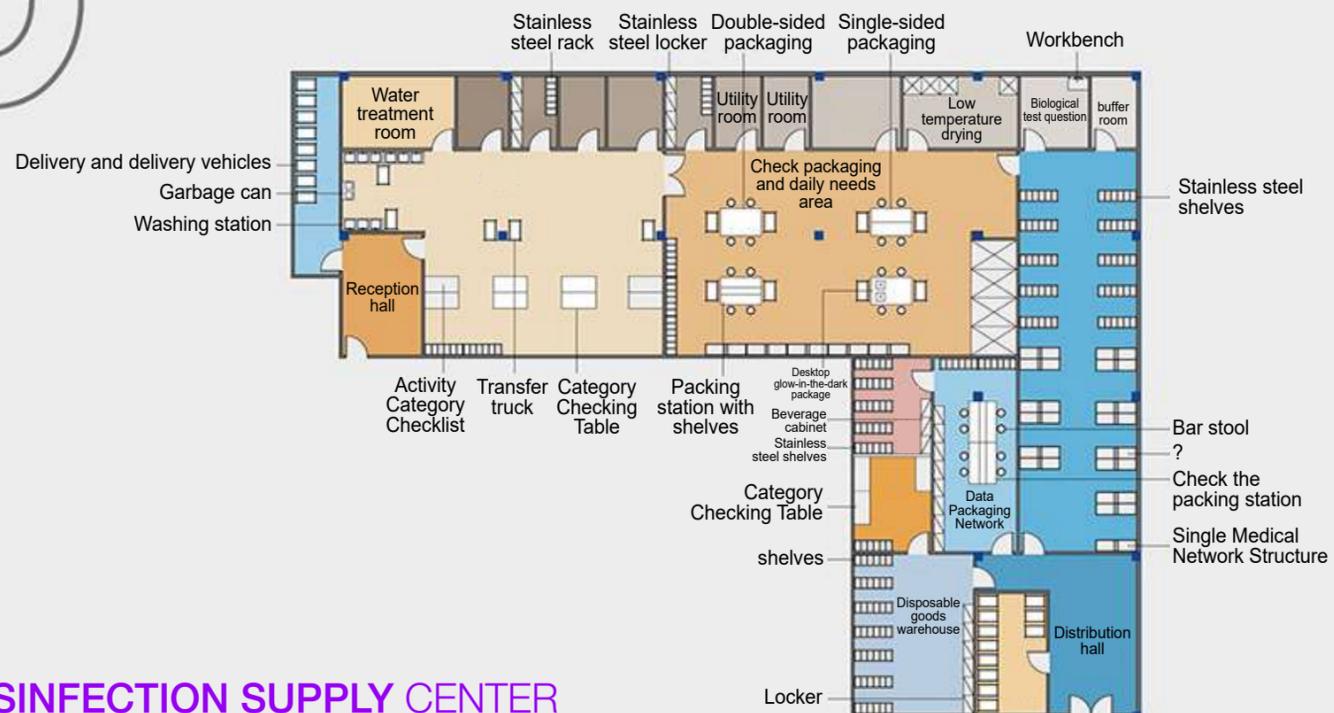

## MULTIMEDIA CONSULTATION ROOM

- ◆ Substrate: Multi-layer plywood with ash veneer, using 0.6mm thick walnut veneer for a clear and natural texture; Paint: Odorless and environmentally friendly paint.
- ◆ Frame: Steel frame; Surface: High-quality environmentally friendly powder-coated metal paint (single layer) with a hardness  $\geq H$ ; impact strength of the powder-coated metal paint should be free of peeling, cracks, and wrinkles; adhesion of the powder-coated metal paint  $\leq 2$  grade; conforms to the requirements of the General Technical Conditions for Metal Furniture QB/T3826-1999, "Test Methods for Corrosion Resistance of Metal Platings and Chemical Treatment Layers of Light Industrial Products," Neutral Salt Spray Test (NSS).
- ◆ The paint film adhesion, hardness, and impact resistance meet national standards.
- ◆ The spraying equipment is an automated production line, ensuring a uniform and durable coating on the product surface.

# 5

## UNIVERSAL PRODUCT

## DISINFECTION SUPPLY CENTER

The supply center of sterilized object is responsible for the supplying work of various sterilized objects. It undertakes the cleaning, packing, sterilizing and supplying of medical instrument. It is also the key department to control infection in the hospital and ensure the quality of medical treatment.

# FURNITURE SUITABLE FOR THE ELDERLY QUALITY ESCOR

- ◆ **The R&D team:**

Comprises experts from numerous fields, including those specializing in the design and development of age-friendly furniture, color matching, and research on the physical tolerance of the elderly.

- ◆ **Data support:**

Continuously update user experience data for seniors, including data on user experience among seniors of different ethnicities, and make improvements accordingly.

- ◆ **Technical advantages:**

We will collaborate with German age-friendly furniture laboratories, which have been involved in aging populations for some time, to master German-style age-friendly furniture technology and craftsmanship.

## STANDARDIZED PRODUCTION

Our unique production site management system strictly adheres to international standards to monitor, track, and analyze the factory's production processes in real time. It fully integrates data from various units on-site, effectively improving production efficiency and ensuring product quality.

# NURSING HOME INSTITUTION LOBBY

With simple lines, with appropriate circular axes, through the gentle wood of space, people feel the feeling of peace and harmony, so that the elderly have a sense of trust in the organization! The desk is recessed on both sides to provide a wheelchair-accessible space for the elderly with limited mobility

# SUITABLE FOR THE ELDERLY SOFA

**Product Name: Single Sofa**

Model: YY-S3106  
Length/L: 700mm  
Width/W: 780mm  
Height/H: 900mm

**Age-friendly features:**

Seat height 450H, seat depth ≤580D, solid wood frame, durable and stain-resistant, rounded corners for safety and impact protection, firm seat cushion, high-density sponge, waterproof seat cover.

**Material Description:**

Rubberwood / Odorless and environmentally friendly paint / High-density premium sponge / Fabric finish.

**Product Name: Three-seater sofa**

Model: YY-S3107  
Length/L: 2000mm  
Width/W: 780mm  
Height/H: 900mm

**Age-friendly features:**

Seat height 450H, seat depth ≤580D, adjusted according to the ergonomic dimensions of the elderly; solid wood frame, durable and stain-resistant; rounded corners for safety and to prevent collisions; movable seat cushion; removable and washable structure; reinforced sponge for easy sitting and getting up for the elderly.

**Material Description:**

Rubberwood / Odorless and environmentally friendly paint / High-density premium sponge / Fabric upholstery.

**Product Name: Long Coffee Table**

Model: YY-F5005  
Length (L): 1000mm  
Width (W): 600mm  
Height (H): 550mm

**Age-friendly elements:**

Marble countertop, slightly higher to prevent excessive bending during use, and rounded corners to reduce the risk of injury from collisions.

**Material Description:**

Solid wood multilayer board + rubberwood solid wood frame / Odorless and environmentally friendly paint / Marble countertop.

**Product Name: TV Stand**

Model: VY-G6003  
Length (L): 1800mm  
Width (W): 400mm  
Height (H): 600mm

**Age-friendly features:**

Multiple safety edges effectively prevent objects from falling to the ground; slightly raised to prevent excessive bending during use; rounded corners reduce impact injuries.

**Material Description:**

Solid wood multilayer board + rubberwood solid wood frame / Odorless and environmentally friendly paint / Marble countertop

**Color Selection:** The following classic colors were all meticulously crafted by the Hongye Design Team.

**A vibrant array of colors, your choice.**

We offer a variety of color palettes for you to choose from, allowing you to customize your look to match your interior design.

# ELDERLY CARE SUITE

Furniture suitable for elderly couples' bedrooms is mainly made of warm wood, emphasizing natural comfort and displaying a romantic and free leisurely mood.

The American couple's double room is mainly made of warm wood. It pays attention to natural comfort and shows romantic and free leisure.

### Product Name: Self-Care Bed

Model: YY-E4302  
Length/L: 2130mm  
Width/W: 1230mm  
Height/H: 1100mm

### Age-friendly elements:

The headboard is softly upholstered for easy support; the mattress surface is 500H high for easy sitting and getting up; both sides of the bed have solid wood guardrails with rounded corners to reduce the risk of injury from impacts.

### Material Description:

Solid wood multilayer board + rubberwood solid wood frame / Odorless and environmentally friendly paint.

### Product Name: Bedside Table

Model: YY-B1305  
Length/L: 500mm  
Width/W: 400mm  
Height/H: 600mm

### Age-friendly elements:

Elevated design, solid wood frame, and rounded corners on contact surfaces reduce the risk of collision damage.

### Material Description:

1. Main Body: High-quality wood grain E1 grade melamine board, edge-banded with high-quality 2.0mm thick PVC strips, finished by a fully automatic edge-banding machine.  
2. Guide Rails: Professional-grade medical guide rails, featuring smooth operation, quiet operation, and anti-tipping function.

### Product Name: Storage Cabinet

Model: YY-B1111  
Length/L: 1600mm  
Width/W: 500mm  
Height/H: 750mm

### Age-friendly elements:

Taller design, solid wood frame, rounded corners on contact surfaces to reduce impact damage, and exposed handles.

### Material Description:

1. Main Body: High-quality wood grain E1 grade melamine board, edge-banded with high-quality 2.0mm thick PVC strips, finished by a fully automatic edge-banding machine.  
2. Guide Rails: Professional-grade medical guide rails, featuring smooth operation, quiet operation, and anti-tipping function.

### Product Name: Square Side Table

Model: YY-F50012  
Length/L: 500mm  
Width/W: 500mm  
Height/H: 650mm

### Age-friendly elements:

The height is slightly elevated to prevent excessive bending during use, and the rounded corners reduce the risk of collision damage.

### Material Description:

Solid wood multi-layer board + rubberwood solid wood frame / Odorless and environmentally friendly paint.

### Product Name: Armchair

Model: YY-C2821  
Length/L: 600mm  
Width/W: 600mm  
Height/H: 800mm

### Age-friendly elements:

The high-back design is suitable for prolonged sitting; the upturned armrests provide good support; the outward-expanding armrests increase the seating space; and the side features a cane holder.

### Material Description:

1. Main Body: High-quality wood grain E1 grade melamine board, edge-banded with high-quality 2.0mm thick PVC strips, finished by a fully automatic edge-banding machine.  
2. Guide Rails: Professional-grade medical guide rails, featuring smooth operation, quiet operation, and anti-tipping function.

### Product Name: Desk

Model: YY-D2542  
Length (L): 1200mm  
Width (W): 550mm  
Height (H): 1200mm

### Age-friendly elements:

The height is relatively high to prevent excessive bending over during use, and the rounded corners reduce collision damage.

### Material Description:

Solid wood multilayer board + rubberwood solid wood frame / Odorless and environmentally friendly paint.

### Product Name: Wardrobe

Model: YY-B1941  
Length/L: 1000mm  
Width/W: 550mm  
Height/H: 2000mm

### Age-friendly elements:

The height is relatively high to prevent excessive bending over during use, and the rounded corners reduce collision damage.

### Material Description:

Solid wood multilayer board + rubberwood solid wood frame / Odorless and environmentally friendly paint.

### Product Name: Sofa

Model: YY-C3879  
Length (L): 1800mm  
Width (W): 730mm  
Height (H): 850mm

### Age-friendly elements:

The height is relatively high to prevent excessive bending over during use, and the rounded corners reduce collision damage.

### Material Description:

Metal legs / High-density premium sponge / Premium PVC leather.

◆ **Model: YY-E4304 Self-Care Bed**

Dimensions: 2130×1230×1100mm

1. Main body: E1 grade solid wood multi-layer board + wood veneer, surface sprayed with odorless environmentally friendly paint;

2. Legs: High-quality cold-rolled steel plate, metal surface electrostatic powder coating.

◆ **Model: YY-B1307 Bedside Table**

Dimensions: 500×400×600mm

1. Main Body: High-quality wood grain E1 grade melamine board, edged with high-quality 2.0mm thick PVC strips, finished by a fully automatic edge-sealing machine;

2. Guide Rails: Professional-grade medical guide rails, featuring smooth operation, quiet operation, and anti-tipping function.

◆ **Model: YY-B1119 Modular Wardrobe**

Dimensions: 2500×1000×2200mm

1. Main body: High-quality wood grain E1 grade melamine board, with high-quality 2.0mm thick PVC edge banding strips, finished by a fully automatic edge banding machine;

2. Guide rails: Use professional-grade medical guide rails, which are smooth, quiet, and have anti-tipping functions.
